

STORAGE SYSTEM IS  
BLAMED FOR PRICES

Regulate Preservation Plants and  
Living Costs Will Drop, Says  
Tennessee Senator.

## MEAT PACKERS THE WORST

"Eggs Are in the Hands of the Most  
Giant Monopoly There is in the  
World," He Says.

WASHINGTON, Aug. 12.—Federal  
regulation of cold storage of food  
was urged in the senate today by  
Senator McMillan, democrat of Ten-  
nessee, as a means of reducing  
the cost of living, as the only  
ready for the most outrageous  
price of profiteering that can be  
imagined.

Speaking in support of his bill,  
first introduced in 1911 and now as  
amended before the senate in-  
ternational commerce subcommittee,  
regulating cold storage of living re-  
sources, McMillan said if the bill  
had been passed in 1913 he felt more  
the present conditions as to exor-  
bitant prices would not exist.

The meat packers were charged  
with the Tennessee monopoly with using  
only one facility to the food  
prices.

It is a long time since the packers  
were in the hands of the people  
and the people were in the hands  
of the packers. The packers are  
in the hands of the people and the  
people are in the hands of the packers.

Explaining his bill, Senator Mc-  
Millan said it would limit the time  
the packers could hold in cold storage  
and that it has been vigorously op-  
posed by the packers.

Large distributors, the senator as-  
serted, are monopolized. "They are  
in the hands of the most giant  
monopoly there is in the world," he  
said.

"The price the packers pay  
and the price at which they are sold  
is a matter of proportion, and they  
will come down until eggs are  
cheap and regulated."

mobile driven by an aerial propeller

## Welfare Clinic Treats Boy

West Tulsa is going to be made  
whole again through the ministrations  
of the welfare free baby clinic.  
When 12 months old he was strick-  
en with infantile paralysis which left  
his feet deformed. "The child is said  
to walk with great difficulty and one  
limb is some shorter than the other."  
Dr. Ralph Smith examined the boy  
Tuesday morning at the clinic held  
in West Tulsa and probably will op-  
erate next week. Mrs. Victoria  
Freder, welfare nurse, reports 12  
children at the clinic, stating that it  
is hoped that typhoid is eliminat-  
ing and that there is less sickness in  
West Tulsa than usual.

Superfluous Hair, Roots\*  
and All, Quickly Go!

(Absolutely New Home Method)

For the first time in a hundred years a  
genuinely effective method of removing un-  
wanted hair growth has been discovered.  
This new process does not merely  
take off the hair ends; it actually removes  
the root. It does this quickly and harm-  
lessly. It does not do anything like the  
depilatory creams, or other methods.  
Packard's is non-toxic, non-poisonous,  
non-irritating. Get a stick of it from your  
druggist. Follow the simple instructions, and  
have the satisfaction of seeing the roots  
themselves rooted at last.—Advt.
